Our Mission...

The Art Café is a nonprofit multi-media art center whose mission is to develop, maintain and facilitate art/media projects with an outreach component. To provide a space for the development, creation, and exhibition of works by members of the local artistic community. To establish and facilitate a series of grants to be rewarded to members of the local artistic community for the creation of new works. Furthermore, we want to provide a liaison between established artists and emerging artists so as to foster a mentor/protégé inter-relationship and raise awareness of Native arts and crafts.
